

SPORTS DAY

On Saturday, January 31st, the International School of Choueifat, Dubai, organized its annual infants (KG1 & KG2) sports day, which promotes a healthy lifestyle through food and drink choices and an active way of life. Throughout the event, there were orange juice stalls giving away refreshing drinks to the young students and their families. Aside from the usual competitive games there were also bouncy castles for everyone to enjoy. The students brought their kites and delighted in flying them around in the amazing weather. The children played, raced and performed extremely well all day. The teachers and other members of staff are proud of its future sports men and women, as they took a well-deserved break from the regular studies of their school week.
