

## GRADUATION CEREMONEY

**Graduation day 2015. Today, Friday, 22 May, we throw our caps up in the air and put an end to this chapter of our lives. Time flew by way too fast, it seems like it was only yesterday our mothers and fathers were setting us on this journey. Graduation is a day that no student or parent will ever forget. It symbolizes success and completion of a part of our lives. When you look back, today is the moment when it all changes. Class of 2015, it's time to make H15TORY!**
