

After a long Eid holiday, there was no better way to start the first Monday of the month of September than with an event run by the SLO Activities Department called 'Monday Funday.'

Monday, 10th November 2016, the SLO 'Monday Fun Day' event took place at 1PM in the area between the administration building and the cafeteria. There was music, fun competitions, such as the classic sack race and many other exciting activities, to ease everyone back into the school week. To many people Monday is associated with pessimistic thoughts, as everyone in the western world returns back to work or school, but with Sunday already complete, our students are full of energy and ready to take on another fun-filled week at school.

A positive atmosphere of fun and laughter is the key to happiness for our students, therefore, always keeping them entertained and interacting in an uplifting, social environment is our top priority. We hope to encourage all of our primary and secondary students to get involved and contribute any ideas to the SLO about how they can create an even better Monday Funday.
