SENIORS' LAST WEEK ACTIVITIES

For the seniors' last week of school, the SLO organized a number of fun activities to give the students a memorable send-off. The week was kicked off by a time capsule event. The students wrote their favorite memories and buried them in the field, in order to communicate with future ISC Dubai students. The very next day, a treasure hunt was prepared. The students had to follow a trail of clues and use their knowledge and critical thinking to solve the provided questions. During the comedy show, the seniors showcased their acting skills by humorously imitating all their favorite teachers. The show was met by laughter from both the students and the staff members, as they sat back and watched the seniors perform. The next day, the seniors left their mark as they drenched their hands in paint and printed them on a huge roll of paper. The final result was a beautifully created handprint wall. For the final event, all the seniors gathered in the school basketball area to enjoy a delicious breakfast side by side for the very last time.
