

SPELLING BEE

In preparation for the SABIS® STARS event that will be hosted in ISC Dubai this year, the SLO organized a spelling bee contest for the Grade 6 students. The exciting competition was set up as a practice for the three students that will represent our school this year. The contestants made their way to the stage one by one, gracefully spelling the words they were given with content and ease. The cheering of their competitors when they passed each round, and the comforting claps they received when they were nervous lightened the atmosphere, and filled the room with eagerness and enthusiasm. As each round was completed the participants were gradually whittled down to the final three winners: Ali Reza Shaeri Arya Agarwal, and Jenna Abu Lughod. The crowd cheered for all the participants for their great efforts, and they congratulated the students that will represent us in the regional competition.
